

Paul VI High School

Developmental Learning Center

Mission Statement

Paul VI is an alternate self-contained high school for the intellectually challenged. A unique opportunity exists for students who find the regular setting too difficult and unsuitable. The sole mission of the school is to serve its special clientele with the best alternative educational plan available. All the energy and skills of our entire school community [teachers, support staff, parents, students, administration, and the business community] are focused on ensuring the maximum growth and development of each student academically, socially, spiritually and culturally.

9905 Papineau, Montreal H2B 1Z9
